

Project Manager (Implementation)
Brooklyn, New York

About JUMP

[JUMP](#) (a Social Bicycles project) is building the future of urban mobility: shared electric bikes that are the quickest, most enjoyable, and most empowering way to get around a city. Cheaper than most public transit and faster than cars in traffic, JUMP e-bikes are game-changers for local transportation. JUMP currently has systems in the San Francisco Bay Area and Washington DC, and we have plans to expand to at least five major US cities in the next year. Our goal is to transform cities, making them more sustainable, equitable, and livable through electric mobility.

To make this vision a reality, we need to grow our team. We place tremendous value on our company's roots and culture: a mix of ingenuity, controlled chaos, hard work, and sense of purpose. This is a great opportunity to join a rapidly growing team shaping the future of transportation.

About the Role

We are currently seeking a Project Manager to help manage and grow our electric bike share fleets. JUMP seeks a professional who are passionate about making cities a better place to live and bike and can help us continually improve our program's efficiency. As Project Manager you will be responsible for coordinating, managing, and launching SoBi and JUMP systems. Working under the Launch Director you will be instrumental in building standard operating procedures, project planning, scheduling and coordination across SoBi/JUMP teams and other stakeholders. You will be working closely with JUMP's graphic designers, planners, supply chain, and product teams in a fast-paced environment.

Responsibilities

Assist in all aspects of pre-launch activities, including:

- Creating and managing project schedules
- Coordinating with other SoBi teams to build out timelines
- Creating new and following existing implementation procedures
- Understanding overall project goals and timeline
- Tracking equipment for project implementation
- Overseeing and coordinating local part-time/temp staff
- Assist in training local operations staff in software and hardware technology
- Working with and coordinating with local municipal agencies
- Conducting business and community outreach
- Must be willing to travel

Experience and Skills

- Experience: 4+ years of relevant work experience
- Education: College degree in urban planning, project management or related field. Advanced degree a plus
- Communication: Able to communicate and listen effectively; great written, verbal and presentation skills.
- Comfortable with MS Word and Excel, Google systems and other cloud based software
- Passion: Passionate about the overall goals of bike share and sustainable transportation.

Job Type: Full-time

Compensation: Commensurate with experience

Please submit resumes and cover letters to jobs@jumpmobility.com

Equal Opportunity Employer

It is the policy of Social Bicycles (SoBi) to provide employment opportunities without regard to race, color, religion, creed, ethnicity, national origin, alienage, citizenship status, age, marital status, partnership status, disability, sexual orientation, gender (sex), military status, prior record of arrest or conviction (except as permitted by law), predisposing genetic characteristics, or status as a victim of domestic violence, sexual offenses and stalking, and to maintain an environment free of harassment on any of the above-noted grounds, including sexual harassment or retaliation. SoBi strongly encourages diverse candidates to apply.
